

Startup Guide (LCD)

Note: You can turn on the inverter via LCD or App.

The quick setup is required when turning on the inverter for the first time.

1 Go to the **Quick Settings** page.

2 Set the date, time and screen display and then tap the 2.

3 Set grid parameters and then tap the 3.

4 Set power limit parameters and then tap the 4.

5 Set battery parameters and then tap the 5.

6 Connect to a Wi-Fi hotspot with internet access.

It is recommended to go to the **Home** page to ensure that there are no alarms before turning on the inverter.

7

8 Turn on the inverter on **Quick Settings** page.
